

It's Your Life Legacy Story

*A personal look at your life's journey featured
in your own personal short film.*

*It's not just a film.
It's the meaning of your life.*

The lives you've touched with your love, wisdom and philanthropy comprise the meaning of your life. Undoubtedly, they are your greatest gifts to your family, community and society.

Telling that story so all those gifts are portrayed with the honesty, dignity and grace they deserve should only be trusted to an exceptional storytelling team, one that shares a true passion for telling other people's life stories. That's Keith Famie and his Visionalist Entertainment team.

We will come right to your home or place of business and build an interview setting that helps define your life.

The Cost

is determined by the number of filming sessions and locations we may travel to. We will send you a form to fill out for us to create a budget that can work for you.

*"That was one of the best
experiences of my life."*

We hear the same response from nearly every **"It's Your Life Legacy Story"** client.

***"You helped me give my
children and grandchildren
a historical perspective to
their lives and a renewed
sense of pride in where
they came from."***

~Anthony Schimmizi

***"It will be watched for many
generations to come. You
captured the essence of our
mom and we cannot thank you
enough for this gift that we
will all treasure forever."***

~The Sandler Family

In-Studio Set Filming

A truly unique way to bring your personal images of your life's history to life.

The images you share with us are scanned and printed separately. We create custom sets in our studio that help define your life's journey using personal elements that will allow us to bring to your images to life on the big screen.

The Filming Process

Our compassionate and creative approach to documentaries translates seamlessly when creating a touching legacy film for your family and future generations.

That's purely intentional on our part, from our professional lighting, sound and set design; to our use of aerial camera drones for exciting perspectives of your life, you'll feel like you are a part of a Hollywood movie. It's an experience you and your family will talk about for years to come.

Your Private Premiere

After your film is completed, you may choose to host a private premiere screening for your family and friends at a local theater or private banquet facility.

For these events, we often create movie poster-sized production photos of the people featured in your film to place around the room. We will even help secure the theater location for you.

When your personal "It's Your Life Legacy Story" film is completed, your legacy, everything you could hope to pass on to your family and generations to come, will live forever.

About The Filmmaker

Keith Famie has been producing rich, human-interest, inspirational & historical films for the last twenty plus years.

"I truly enjoy helping others tell their life story so their family will also understand the life journey they have been on"

Keith and his team at Visionalist Entertainment Productions have been awarded twenty-three Michigan Emmy Awards as well as several other local and national awards
